Phoseon Technology develops and manufactures UV LED curing lamps and holds 270 patents on this technology. Based outside Portland, OR, Phoseon has direct sales representation in the Americas, Europe and Asia. Since 2002, Phoseon has shipped over 90,000 UV LED units and continues to push the barrier for peak irradiance, energy density and reliability. Direct to container printing is becoming more realistic due in part to high power, long wavelength, low heat LED curing technology as well as major advancements in LED curable inks, coatings & adhesives.
